CALL FOR PAPERS

The 14th international conference on Cryptology Africacrypt 2023 will take place on July 19 -21, 2023 in Sousse, Tunisia. The university of Monastir and the Tunisian Mathematical Society organize Africacrypt 2023 in cooperation with the [International Association for Cryptologic Research](#) (IACR). Proceedings will be published in [Springer's Lecture Notes in Computer Science](#) and will be available at the conference. The aim of Africacrypt 2023 is to provide an international forum for practitioners and researchers from industry, academia, and government from all over the world for a wide-ranging discussion of all forms of cryptography and its applications, including, but not limited to : Foundations and underlying theory, Public-key cryptography, Symmetric cryptography, Cryptographic engineering, Advanced cryptographic protocols, Applications of cryptography, ...

Instructions for Authors

Authors are invited to submit papers electronically in PDF format. Submitted papers must be original, unpublished, anonymous, and not submitted to journals or other conferences/workshops that have proceedings. Submissions must be written in English and should be at most 25 pages in total including bibliography and appendices. Submissions will be blind-refereed. Authors of accepted papers must guarantee that their paper will be presented at the conference, and must make a full version of their paper available online.

Authors shall consult [Springer's authors' guidelines](#) and use their proceedings templates, for LaTeX, for the preparation of their papers. Springer encourages authors to include their ORCID in their papers. In addition, the corresponding author of each paper, acting on behalf of all of the authors of that paper, must complete and sign a Consent-to-Publish form. **Note that submissions are via EasyChair.**
